Dear Mr. Jon,

Thank you very much for your contribution to uplift the Physical resources of our school. Children of our school always remember your name. Sometimes our teachers also ask about you and why you haven't been seen recently.

I think you must be enjoying much needed vacation raising funds for needy schools. Results of grade 5 Scholarship examination were released and 34 of our students have got through. We gave away them photo copies of sample question papers using the toner donated by you. So you are also a contributor for passing such a big number of students from our school. Drawing of paintings are still in progress.

Now we have three computers for our students and still we are trying our best to get 7 more computers.

We are happy to state that your gifts have contributed very much to enhance the quality of education our children receive. Your aim is to supply these poor children physical needs that are necessary for quality education.

Safety of our students is assured by the fence built with your money. Children of our school presented a drama at the zonal level English day competitions. They emerged victorious with second place for our school. When you come back you can watch the drama using the DVD Player and the television gifted by you.

Your donations are numerous. So I can't mention all what you have gifted us. But I can say that you are very happy about our Children, when they shout "Jon Mama" displaying their gratitude.

As Buddhists we believe alms given to poor people are meritorious deeds. Our next birth will be on what we have done in the present life. In that sense you have gathered much more merits, that in next birth your life will be much happier.

Once again I thank you very much and your friends who sacrifices many things for the needy people of our country. May you & your friends enjoy happy lives.

Mr. Jon, Our Children are waiting for you and to meet you again when you come back, have a nice holiday.

Thanks,  
W.Muthumala (Principal, H/Yatalatissa P.S.)
